

SHAPED POSTS AND CAPITOLS - TERMINOLOGY

There are many options when it comes to shaping a post to suit the pickets or other type of fence you have. This sheet shows some of the alternatives that we can do in the workshop and the names we give each one

CAPS / CAPITOLS

Low Rise Pyramid

Flat Cap

Angeline (Aluminium)

Ball Capitol

Windsor Capitol

These 3 generally sit on a flat square post top

Small and Large, Post Shaped for Capitol

POST TOPS

Peak

Pyramid

Chamfer

Splay

Icy Pole

Shape for Capitol

These can be done on dressed 90,100, 115, or 125mm posts. We will need to know height of peak from base

ROUTER LINES AND EDGES

Router Line (Collar)

We will need line thickness and distance from top

Chamfer (Flat Edge)

We will need length and distance from top

Or whole post and then 2 edges or all 4

Bull Nose (Rounded Edge)
